

SYSTRAN 7

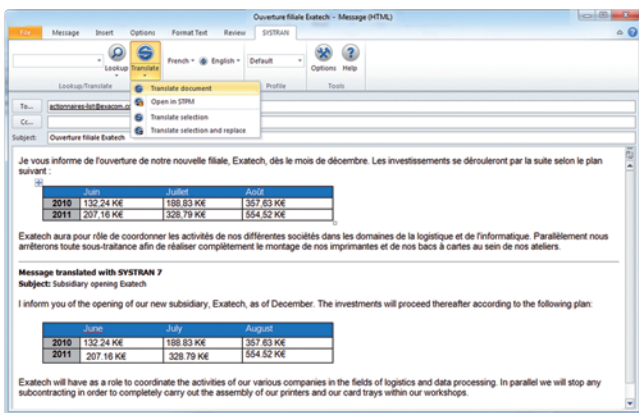

Business Translator

Create and understand accurate translations of documents, emails, Web pages, texts, and collaborate more efficiently!

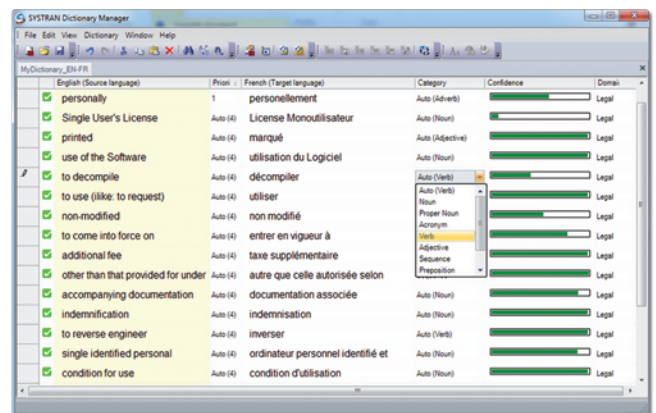

Designed to meet the needs of today's small and mid-sized businesses, SYSTRAN 7 Business Translator adapts translation to your domain or business objective by automatically learning from your texts and documents. Create dependable translations of company correspondence, procedures, product information, and other documentation in popular file formats. Save and repurpose previous translations for future use. Translate from your PC or online when traveling.

SYSTRAN 7 Key Features

- Supports Microsoft Office, OpenOffice, PDF, RTF, HTML, and XML
- Business and Computer Science dictionaries
- Interactive Translator with smart dictionary lookup and intuitive translation choices
- Quick File Translator for multiple file translation
- Translation Project Manager with revision tools
- Toolbars for Microsoft Outlook, Word, PowerPoint, and Excel
- Customization Wizard adapts translation from your texts
- Enhanced Dictionary Manager includes your terminology and Translation Memories

The new SYSTRAN Toolbar for Outlook is integrated within Microsoft Outlook 2010, 2007 and 2003. Just click and your translation appears under the original message.

SYSTRAN Dictionary Manager supports bilingual dictionaries containing specific terms which are used to adapt translation to your context. IntuitiveCoding™ technology generates the appropriate inflection of words.

Selected by leading Internet portals, global corporations, and the US intelligence community, SYSTRAN is the leading supplier of language translation software.

- Patented translation engine
- More than 50 available language pairs
- Integrated dictionaries with millions of words and expressions
- Terminology from Larousse and Chambers
- Spelling and grammar checkers
- Automatic detection of acronyms, entities (names, dates, time, etc.), source language, and more
- Translation profile management

Domain Dictionaries

- Business
- Computer Science
